The Global Indian Financial Services Brand

Our customers will enjoy the benefits of dealing with a global Indian brand that best understands their needs and delivers customized pragmatic solutions across multiple platforms.

We are a world class Indian financial services group.

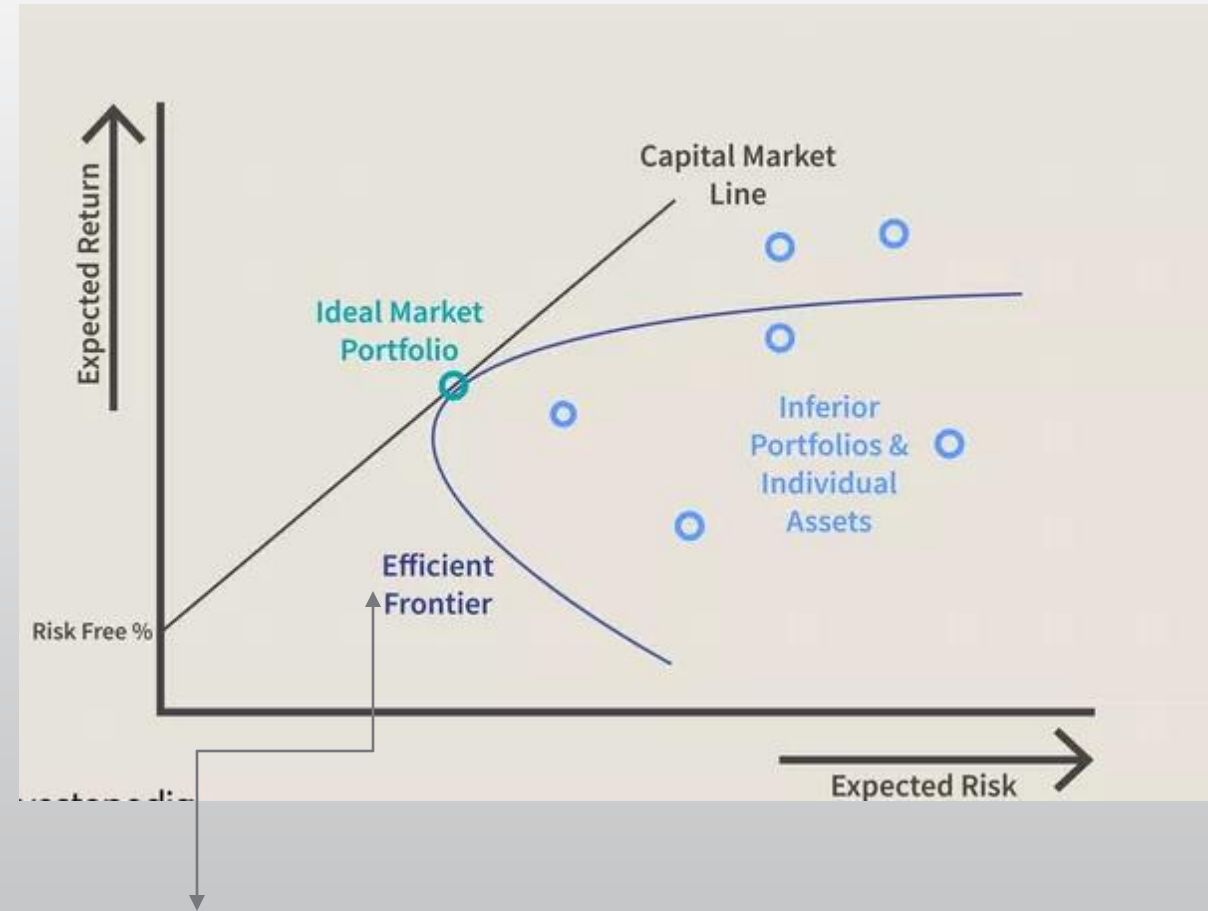

Vision to express for investors how to understand the tool that reduces the risk of adding an asset to a well-organized and diversified portfolio. It is a technical framework that needs quantitative data. It is simple and functional, making it the most popular choice among financiers and marketers

Core Business Values

At Farsight vivid understandings are inculcated with investors

There is evidence that the stock market is more efficient in processing information about what other investors are doing than it is in processing fundamental information about the underlying assets, which is why stock prices so often turn out with hindsight to have been crazy rather than rational.

USP of Farsight Securities Limited
